

## Metal mesh as an identity creator

### Golden membrane for art school in Calais

WORLD WIDE WEAVE

Picture 1: Curved solar protection façade in three pieces made of golden Escale metal mesh from GKD at the Ecole d'Art de Calais.

Picture 2: The three-story building is both a symbol of the revived town and a meeting place.

Picture 1-5 © Architecte Arc.Ame + Michel Denancé

Picture 3+4: The semi-transparent metal mesh from GKD performs the function of a protective membrane between the outside world and the internal life of the school.

Picture 5: Suspended façade elements made of gold-colored aluminum mesh from GKD.

We will be happy to send you the desired images in printable resolution by e-mail.

These images are meant exclusively for use in connection with this particular press release on the company GKD – GEBR. KUFFERATH AG. Any other use beyond this expressed purpose, especially use in connection with other companies, is strictly prohibited.
