MEDIAMESH® used to showcase artworks at the Cleveland Institute of Art

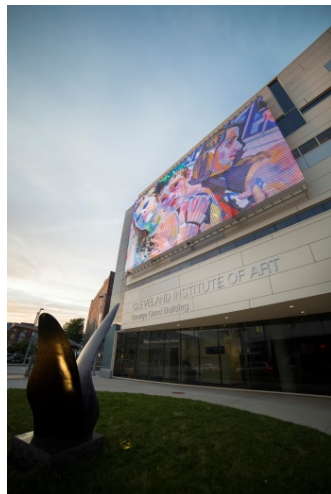

WORLD WIDE WEAVE

Picture 1: With its 71.680 pixels, the 150 square meter MEDIAMESH® screen by GKD guarantees crystal-clear display of graphics, photos and also video clips of the students.

Picture 2: The transparent metallic fabric screen of GKD with integrated LED profiles allows a lot of daylight into the university's rooms, while also providing an unrestricted outward view from inside the building.

Picture 3 + 4: The sophisticated yet minimalistic construction blends into the background rather than seeking to steal attention away from the facade, while contributing to its unmistakable character.

Picture 5: Four panels – each measuring 4 x 9.3 meters – form a bright display that serves as a presentation platform for student works.

Picture 1-5 © GKD/Connor Elder

We will be happy to send you the desired images in printable resolution by e-mail.

These images are meant exclusively for use in connection with this particular press release on the company GKD – GEBR. KUFFERATH AG. Any other use beyond this expressed purpose, especially use in connection with other companies, is strictly prohibited.
